PROFILE

My name is Tamás. I have been working with computer science for a long time on a hobby level and nowadays also on a professional level. I'm studying computer programming at the university of Szeged; however, I've picked up most of my knowledge through college, challenges and the internet.

PRO SKILLS

Typescript, NodeJS
Clean Code
C++
C#
Linux
Teamwork

PERSONAL SKILLS

Quick learning
Motivated
Trustworthy
Friendly
Open to new things

EDUCATION

HIGH SCHOOL
2016 - 2020

BMSZC Neumann János
I studied IT basics, programming, operating systems and computer networks. I have been involved in several projects.

Pázmány ITK
2020 - 2021

Computer Engineering BSc
I took the challenges during the online education, but I did not feel that I have chosen the right institution for my studies.

University of Szeged
2021 -

Computer Programmer BSc
I am studying here and halfway through my BSc degree. I am considering getting a master's degree here in the future.

Simonyi Károly College for advanced studies

Member, KIR-DEV
I joined as an outsider because I was fascinated by what they can achieve. I am a member of the web development team.

WORK EXPERIENCE

ERICSSON
2021 - 2022

Student Developer
I was doing Cloud Native development in part-time on a huge C++ codebase. I mostly did testing tasks.

Móra Ferenc College
2021 -

Network Administrator
In my spare time, I work as part of a team of five, on network improvement and service operation tasks. We successfully modernised the network and I learned a lot in the process.

AWARDS

TOP 15TH
2020

ASZÉV competition, in IT
National competition for students graduating from secondary schools.

Dream Team
2020

Graduating certification
I, together with some of my friends, were awarded for our excellent results in team competitions.
