PROFILE

My name is Tamás. I have been working with computer science for a long time on a hobby level and nowadays also on a professional level. I'm studying computer programming at the university of Szeged. I am seeking to enhance my skills through an Erasmus exchange program.

TOP SKILLS

Typescript, NodeJS
Java
Rust
Linux
Python
Clean Code

PERSONAL SKILLS

Quick learning
Adaptability
Time management
Problem solving
Open to new things

EDUCATION

HIGH SCHOOL
2016 - 2020

BMSZC Neumann János
I studied IT basics, programming, operating systems and computer networks. I have been involved in several projects.

Pázmány ITK
2020 - 2021

Computer Engineering BSc
I took the challenges during the online education, but I did not feel that I have chosen the right institution for my studies.

University of Szeged
2021 -

Computer Programmer BSc
I am a final year BSc student at the University of Szeged who is looking for Erasmus exchange to enrich my education and career.

Simonyi Károly College for advanced studies

Member, KIR-DEV
I joined as an outsider because I was fascinated by what they can achieve. Now, I am a member of the web development team.

Móra Ferenc College for advanced studies

Network Administrator
I work with several self-hosted networking software like nginx, http cache, rsyslog, dns server, prometheus, grafana, RouterOS firewall, hotspot, QOS, docker, arch, centos, ubuntu, proxmox and openwrt. I also created a user portal in svelte.

WORK EXPERIENCE

Cloudera
2022 -

Software Engineer Intern
I am working on the automation of development and testing of the Apache NiFi products since June.

LANGUAGE PROFICIENCY

English
Intermediate / B2 level

BME Examination Centre
Certified at B2 level in 2018 and I have improved since then. I have a strong understanding of professional language.
